Mr. Atkisson,

It appears the information you requested was fairly easy to access electronically (see attached).
Thank you for your request,
Kathy

Subject: Sherwood Elementary Construction Project Info Request

Kathy,

Thank you for your help with tracking down the information I requested from Ms. Laurie Luna who then referred me to you this morning. Based on our discussion I understand this request falls under the MO Sunshine Law. It probably doesn't really matter why I am making this request, but the reason is to obtain actual cost information for the project that can be used to help estimate and/or validate the cost of future similar construction projects.

The specific documents being requested are:

- General Contractor bid tabulation (4/25/14)
- General Contractor's final payment application including the schedule of values breakdown (indicating the original contract amount, any change orders, and the final contract amount)

Should you have any questions or concerns please feel free to contact me via phone or e-mail.

Thanks again to both you and Laurie for your help!

David Atkisson, LEED® AP
